

COMMUNITY HEALTH PARTNERSHIP

# Community Health Partnership's Advance Care Planning (ACP) Grant

- Two years of funding through The Colorado Health Foundation
- One of 3 recipients in our region (El Paso, Teller, Park, and Elbert counties)
  - Rocky Mountain Rural Health
  - Catholic Health Initiatives
- Includes the following milestones:
  - Increase the number of Coloradans actively engaged in their health with advance care planning by 1,600 patients
  - Hold 80 educational sessions for patients
  - Train 18 provider offices in initiating conversations, billing information, etc.

## For Individuals & Families

You never know what the future holds. Who would make your medical decisions if you were unable to speak for yourself?

CHP's Advance Care Planning Team can guide any person, 18 and over, in creating a plan for your end-of-life care that represents your values and what is important to you at no cost.

*We can guide you in:*

- Sharing your values and wishes with your loved ones
- Putting your plan in writing and sharing it with your family and physician
- Understanding life-sustaining treatments
- Choosing treatment options you would want or not want should you be diagnosed with a life-limiting illness

## For Medical Providers

Our team can provide complimentary services to help you take your advance care planning practices to the next level in order to better serve your patients.

We can help to streamline your operations and alleviate staff resources by offering the time and the one-on-one support your patients need in completing their advance care directives.

*Our team can:*

- Provide complimentary trainings and educational seminars to grow your team's knowledge in order to move patients toward advance care planning
- Provide complimentary one-on-one meetings to guide your patients through the advance care planning process

# Now Available!

## Life Care Planning Conversations WHAT YOU SHOULD KNOW

### Workshop Goals:

With this information individuals, families and caregivers can increase their knowledge about the options available to them if they have an accident, are near the end of their life or just want to plan for the future.

- *Who makes the decisions?*
- *What is included?*
- *How are the directions followed?*
- *How do you share the information with your family, doctor, caregiver, friends, attorney or spiritual advisor?*

This service is available to you at **no cost**. We can help you develop an action plan to share with your doctor, family or whomever you desire to be involved in making your end of life wishes known. We offer flexible meeting times and places.

### Be proactive instead of waiting for an emergency or a terminal diagnosis.

- *Have a greater sense of control and comfort with your decisions*
- *Help advise your family or loved ones of your wishes*
- *Help health care workers know how to respond when you need their help*
