Prevention / Re-Housing

Vulnerability Index -

Service Prioritization Decision Assistance Tool

(PR-VI-SPDAT)

Prevention/Re-Housing Prescreen Tool for Single Adults

To be used ONLY with people that are currently housed and feel they are at imminent risk of losing their housing. “Imminent risk” is determined by the program participant. Types of dwellings that count as “housed” for this tool are:

• An apartment that is in their name (legally permitted to stay there)
• A home that they own
• The home of a parent, other relative or friend where they believe they have been staying permanently (not feeling there was a time limit on how long they were permitted to stay)

Opening Script

Every assessor in your community regardless of organization completing the VI-SPDAT should use the same introductory script. In that script you should highlight the following information:

• the name of the assessor and their affiliation (organization that employs them, volunteer as part of a Point in Time Count, etc.)

• the purpose of the VI-SPDAT being completed

• that it usually takes less than 7 minutes to complete

• that only “Yes,” “No,” or one-word answers are being sought

• that any question can be skipped or refused

• where the information is going to be stored

• that if the participant does not understand a question that clarification can be provided

• the importance of relaying accurate information to the assessor and not feeling that there is a correct or preferred answer that they need to provide, nor information they need to conceal
