

Natalie Mann

Natalie is CHP's Manager of Human Resources. She has seven years of human resource management experience including strategic human resource planning, performance management, staffing, federal and state law compliance, contract negotiations, employee benefits, compensation and payroll, training and development, risk management, and management coaching.

She holds a bachelor's degree in Applied Organizational Leadership from MidAmerica Nazarene University (Olathe, KS). Natalie is a member of the International Public Management Association (IPMA) with a Human Resources Senior Certified Professional (IPMA-SCP) designation.

Natalie's HR philosophy can be best characterized as people-oriented. "I was raised to treat every member of an organization with the same respect as the CEO. This value system is at the heart of how I lead my teams and interact with others, and it allows me to build real and valuable trust with the employees I serve."

Positive, proactive, self-reliant, and results-oriented, she is a strong and adaptable leader who handles both internal and external conflicts with thoughtful care, genuine concern, and the highest levels of integrity and discretion.

As a leader, employee advocate, effective mediator, and dedicated teammate, she loves helping a business grow by finding, developing, and supporting its outstanding employees.

Natalie and her husband share nine children. If she's not busy working, she is cheering on her beloved Kansas City Chiefs.
