

# PEOPLE EXPERIENCING HOMELESSNESS - 2021-2022 COUNTS

## POINT IN TIME SURVEY

The U.S. Department of Housing and Urban Development (HUD) requires that all CoCs conduct the Point in Time (PIT) survey, an annual count of people experiencing homelessness on a single night in January. Emergency shelters and transitional housing programs collected client-level demographic information from individuals and families staying that night.

The PIT is required to be conducted during the last ten-days of January, however, due to a surge of COVID-19 cases in El Paso County in January 2022 and with guidance and approval from HUD, the Pikes Peak Continuum of Care, a program of Community Health Partnership, elected to conduct the PIT count on the night of February 21, 2022.

## POINT IN TIME COUNTS

**1,443**      **396**      **75**

**Total Persons**

Experiencing Homelessness on February 21

**Chronic Homeless**

Homeless with a disabling condition for 12 consecutive months or on 4 separate occasions in the last 3 years

**Transition Age Youth**

Individuals ages 18-24

## SHELTER INVENTORY

### Emergency Shelter Beds

**807 beds in 2022**  
**85% occupancy**

### Transitional Housing Beds

**588 beds in 2022**  
**83% occupancy**

## BUILT FOR ZERO

**401**

**Veteran Households**

Monthly average number of households with at least one veteran that were homeless

January - June 2022

**358**

**Transition Age Youth**

Monthly average number individuals age 15-24 that were homeless

January - June 2022

PIT data only provides a snapshot of homelessness in our community. Additional data is collected year-round by the PPCoC that provides a more robust representation of the number of people experiencing homelessness in the Pikes Peak region:

**Homeless  
Management  
Information Systems  
(HMIS)**

**9,139**

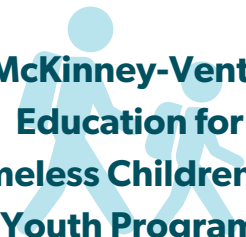

The number of unique individuals accessing the community's HMIS for services or housing support related to homelessness

**Coordinated Entry  
Program**

**3,005**

The number of housing needs assessments conducted by providers to prioritize and match households experiencing homelessness to housing vouchers

**McKinney-Vento  
Education for  
Homeless Children and  
Youth Program**

**1,048**

The number of unique students identified by school districts as experiencing homelessness

## About the PPCoC

The U.S. Department of Housing and Urban Development (HUD) refers to the group of service providers involved in the decision-making processes for preventing and ending homelessness as the Continuum of Care. The PPCoC is a network of stakeholder groups committed to identifying and meeting community needs to end homelessness. The PPCoC creates the conditions to ensure housing projects are built and services are offered to individuals and families experiencing homelessness; to give voice to homeless issues in the region; to coordinate planning in support of ending homelessness; to convene a robust forum to address key needs; and to ensure quality and accountability of programs and the service delivery system.
